

# Business Case Development for Increased Access to PFT Services

**Physician Lead: *Dr. Doug Rolf***

## Goals

This FE Activity brings members of the Respiratory Medicine Department together with PFT staff and IH representatives to review the wait-list for PFT testing. The goal is to develop a business case to increase access to these services for consideration by the Health Authority

***Budget: \$3,600***

## Objectives

The objectives of this FE Activity are to:

- Review the comparative data on wait-times for various Pulmonary Function tests
- Build a business case to address the wait-times aimed an increasing access to care for patients and increased response time for referring physicians
- Submit business case to KGH & IH leadership for their consideration

KELOWNA GENERAL HOSPITAL

Physicians Society

- Improved quality of care for this patient population
