

# Clinical Care GI Pathways for IBD & Non-IBD Patients

**Physician Lead: *Dr. Sundeep Singh***

## **Goals**

- Deliver enhanced IBD care to the unequivocal standard in Canada
- Provide an avenue for our IBD expertise to reach additional patients in the Interior Health region
- Provide a structured framework for GP's to use when treating common GI ailments
- Reduce hospital admissions and reduce morbidity in IBD patients

## **Outcomes**

- Our goal is to create evidence-based clinical care pathways for various common GI consultations, including: IBS, GERD, Dyspepsia, Diarrhea, and Constipation

**Budget approved: \$5,000**
