

# Critical Care Multidisciplinary Follow-Up Clinic – Preliminary Investigation

**Physician Lead:** *Dr. Ryan Foster*

**Goal:** To engage a wide range of physicians & allied health professionals to work together to conduct a preliminary investigation to determine the feasibility, the plausibility and the risks / limits to establishing a PICS follow-up clinic at KGH.

## **Outcomes**

- A planning document, that will be shared with hospital administration on the viability of a Post Intensive Care Syndrome multidisciplinary clinic at KGH.
- Improved outcomes and quality of care for long term survivors of critical care.

**Budget approved: \$6,568**
