

Optimizing Pediatric Perioperative Care in Children less than Two Years of Age

Physician Lead: *Dr. Sarah Sunderland*

Goals

The objectives of this FE Activity are:

- Pediatrics working group to assess appropriate algorithms of care and, if necessary, age or complexity cut-offs for pediatric patients who may no longer be deemed appropriate for surgical care at KGH.
- Undertake a survey of surgical ability and IH referral patterns to define level of service.

Outcomes

- Improved flow and care delivered to pediatric surgical patients.

Budget approved: \$7,631
