

Transition of Diabetic Youth to Adult Services

Physician Lead: *Dr. Mark Duncan*

Goals

- Engage a team of physicians to develop a user friendly program to support youth with diabetes as they transition to adult services
- Share resources developed with all team members

Budget approved: \$8,300

Outcomes

- Improved care delivery for this patient population
- Improved health outcomes for young adults with Diabetes related to better self-management of their chronic illness
- Potential to replicate this model of care delivery to other youth populations with chronic illness
