

Web-solution to Improve KGH Cardiac Patient and Provider Education, Information, Engagement and Outcome

Physician Lead: *Dr. Frank Halperin*

Outcome

- A web based solution to provide improved information / educational resources to patients, families and health care professionals at KGH

Budget approved: \$5,000

Goals

- To plan, create and implement a web based solution that will be used as a framework to provide integrated information & educational resources to patients, families and health care professionals at KGH
- Create a functioning departmental website for cardiac services
- This framework and website can be the template for other departments to use to create their own web solutions targeting other patient populations and health conditions
