

# Identifying Barriers to Engagement with Department of Medicine

**Physician Lead: *Dr. Giulio Dominelli***

## Goals

The objectives of this FE Activity are to administer a survey to identify:

- What issues/perceptions prevent engagement, historically and currently.
- Adequacy of communication.
- Impact of current interventions and whether to continue them.
- Ways to improve engagement moving forward.

## Outcomes

- Remove barriers and create a culture of engagement and communication with which to move forward.

**Budget approved: \$3,200**
