

Outpatient Antibiotic Therapy in Marginalized Populations

Physician Lead: *Drs. Jonathan Price and Vikas Chaubey*

Goals

The objective of this FE Activity is to improve patient compliance by developing an alternate model of care that increases patient freedoms, thereby liberating acute care beds, decreasing cost and decreasing morbidity and mortality.

Outcomes

- Improve the patient care experience and quality of healthcare delivery.
- Better healthcare outcomes due to patient centered approach.
- Healthcare expenditures will decrease.

Budget approved: \$8,055
