

Improved Access to Care - Rehabilitation Medicine at KGH

Physician Lead: *Dr. Jan McIntosh*

Goals

- To bring lead physicians and stakeholders together to develop a strategic plan to ensure a vibrant tertiary level rehab inpatient program.
- To optimize access to care for the complex rehabilitative patients across IH.
- Potentially involve a coordinated systems approach to rehabilitation services across IH.

Outcomes

- To engage physicians and bring them together with administrative representatives to review the utilization and outcome data to develop a strategic plan .
- To enhance and optimize this highly specialized service.
- Share the plan with IH leadership for consideration.

Budget approved: \$5,168
