

Managing the Changing Demands on the KGH ORs and Unscheduled Surgeries

Physician Lead: *Dr. Michael Humer*

Goals

- Collaborate with KGH Administration and the IH Surgical Services network to identify the specific areas where surgical capacity should be increased based on a review of historical booking and scheduling data, trauma volumes and related surgical benchmarks.
- Propose solutions and work closely with KGH Administration to identify the feasibility of such solutions and the impact.

Outcomes

- To optimize scheduling, OR efficiencies and patient flow.
- Improve upon the quality of care received by patients by optimizing timely access to care through the allocation of procedures based on patient needs.

Budget approved: \$25,667
