

Peri-Operative Simulation Program

Physician Lead: *Dr. Hardave Gill*

Goals

- To undertake initial steps to create a peri-operative educational program and start actively using simulation for educational purposes.
- To provide ongoing education and delivery of high risk, low frequency events which will improve cohesiveness within the providing groups who take care of operative patients.

Outcomes

- To design, implement and propel the future of peri-operative simulation at KGH to enhance patient outcomes.

Budget approved: \$2,000
