

Development of a Lung Cancer Screening Clinic

Physician Leads: *Drs. Giulio Dominelli and Maurice Blitz*

Goals

- To develop a collaborative approach to detect lung cancer at early stages, ultimately reducing costs and morbidity/mortality.
- Determine how clinics will be held, funded, scheduled and how referrals will be received and triaged.
- Determine resource demands.

Outcomes

- To develop the framework for a multidisciplinary weekly clinic.

Budget approved: \$9,600
