

# Development of a Severe Asthma Clinic

**Physician Lead:** *Dr. Julia Pritchard*

## Goals

- Define a systematic approach to the management of disease, confirmation of the correct diagnosis, management of co-morbid conditions that mimic or aggravate asthma, and provide an environment to optimize treatment and asthma self-management and education.

## Outcomes

- To provide clinical care and education to patients diagnosed with asthma.
- Develop a collaborative approach to care of patients with severe asthma by allowing effective and efficient communication between all levels of care.

**Budget approved: \$9,750**
