

Hospitalist Management of Trauma Inpatients at KGH

Physician Lead: *Dr. Farin Foroodi*

Goals

- Carry out environmental scan of the current KGH Trauma Inpatient population and services involving communication with key stakeholders at KGH
- Review data and make initial recommendations to KGH leadership regarding improving care to trauma inpatients using available Hospitalist resources

Outcomes

- Improve patient quality care to a unique set of patients, with high acuity
- Alignment with KGH strategic goal of improving trauma services
- Improve working relationships with other services involved in trauma care
- Enhancing Hospitalist co-management models

Budget approved: \$5,000
