

Endovascular Treatment for Stroke at KGH – Engaging Physicians for Implementation

Physician Lead: *Dr. Aleks Tkach*

Goals

- Engaging physicians in the new acute care stroke service by informing them of the service and possibly refine the operational side of implementation.

Outcomes

- Improve quality of care.
- Delivery of a critical and economic benefit to the community by ensuring those involved in the program have the most current data and a comprehensive understanding of the process.

Budget approved: \$9,400
