

Emergency Department Urinary Retention Pathway

Physician Lead: *Dr. Lauren Arthurs*

Goals

- Engage physicians and allied health care professionals from both Urology and Emergency Departments.
- Create, develop and review a new pathway that has not been previously used.
- Provide a safer and more uniform algorithm for accomplishing catheter insertions.

Outcomes

- Improved patient-centered outcomes.
- Foster collaboration between nursing and physicians as well as between departments.
- Achieve a common goal.

Budget approved: \$7,948
