

# Orthopaedic Pre-Surgical Screening Criteria

**Physician Lead:** *Dr. Robert Petretta*

## Goals

- Define and review pre-surgical criteria in areas where a patient needs to be further optimized or put on medical hold.
- Communication with Surgical Optimization Clinic.

## Outcomes

- Patients will be flagged if the criteria is not met and possibly put on a medical hold until they are optimized.
- Minimize peri-operative risk factors and improve patient outcomes.

**Budget approved: \$5,635**
