

Engaging in Climate Action at KGH

Physician Lead: *Dr. Nicola Tam*

Goals

- Form a working group to make a plan for engaging and communicating climate action messaging to the KGH community
- Form a working group for climate-conscious inhaler prescribing comprised of representatives from key departments.

Outcomes

- Bring physician leaders from different specialties together to engage with the KGH community, Interior Health, and the Kelowna patient community, and act as models in making changes towards a more sustainable health system

Budget approved: \$9,297.20
