

# Interdisciplinary Interior GI Tumor Group Consensus Retreat on the Use of Neoadjuvant Therapy for Rectal Cancer

**Physician Leads:** *Dr. Benjamin Mou*

## Goal

- Hold an interdisciplinary consensus retreat for the Kelowna GI Tumor Group to discuss issues leading to consensus guidelines and more consistent patient management

## Outcomes

- Members of the Kelowna GI tumor group will benefit from having consensus statements to guide future management decisions.
- Patients will benefit from having more consistency in treatment recommendations.

**Budget approved: \$8,326.20**
