

# Consensus Building for Non-Operative Rectal Cancer

**Physician Lead:** *Dr. Magdalena Recsky*

## Goals

Bring together a multidisciplinary team of physicians to develop local consensus on patient eligibility, preferred neoadjuvant therapy strategy, and a protocol for endoscopic and radiologic surveillance.

## Outcomes

- Establish local consensus for rectal cancer patients who desire non-operative management.
- Patients will benefit locally developed streamlined services

**Budget approved: \$6,842.00**

*January 2024*
