

Develop and Implement General Surgery Post-Op Pathways

Physician Lead: *Dr. Sita Ollek*

Goals

Create and implement standardized post operative order sets for the following areas:

- Day care general surgery (e.g. laparoscopic cholecystectomy, inguinal hernia)
- Breast and melanoma surgery
- Gastrectomy
- Bariatric surgery (sleeve gastrectomy)
- Liver resection

Outcomes

Implementation of standardized order will help support care of surgical patients across the continuum of their care, including the immediate and early post operative period.

Budget approved: \$6,670.95
