**Objectives:** Upon completion of this program, participants will be able to:

1. Identify the indications and contraindications for new modalities in the prevention, diagnosis, and treatment of various medical conditions.
2. Formulate prioritized differential diagnoses for the clinical presentations of various medical conditions, diagnoses, and diseases.
3. Apply clinical guidelines to patients under their care with an understanding of the rationale behind the guidelines and the expected outcomes of specific medical conditions, diagnoses, and diseases.
4. Integrate techniques related to specific medical conditions, diagnoses, and diseases, into their own clinical, translational or basic science research.

(\* This one credit-per-hour group learning program has been certified by the **College of Family Physicians of Canada** for up to 4 Mainpro+® credits. The University of British Columbia Division of Continuing Professional Development (UBC CPD) is fully accredited by the Committee on Accreditation of Continuing Medical Education (CACME) to provide study credits for continuing medical education for physicians. This event is an **Accredited Group Learning Activity (Section 1)** as defined by the **Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada** and has been approved by UBC CPD for up to 3.75 MOC Section 1 Group Learning credits. Each physician should claim only those credits accrued through participation in the activity.)
