

# Multidisciplinary Consensus Building in Neurosurgical Oncology

**Physician Leads:** *Dr. Daniel Yavin*

## Goal

- Physicians from different departments will meet to achieve consensus on issues, set priorities for the potential introduction of new clinical services, and assess the resource impact on different department.

## Outcomes

- Achieve consensus on several topics related to the coordination of clinical services across departments in the management of neuro-oncology patients.

**Budget approved: \$7,664.10**

**April 2024**
