

*is pleased to present the following video highlights from the
October 25, 2024 Half-Day CME Event
Care of the Hospitalized Patient ***

Featuring:

Dr. Maggie Moores: *Endovascular Thrombectomy 'Before to Now'*

Dr. Nevin de Korompay: *Evolving Venous Interventions*

Dr. Moores is a neurologist working primarily in the TIA clinic and on call covering the stroke service. She completed her neurology residency in Ottawa and did a one year stroke fellowship in Calgary before moving to Kelowna. Her other main career interest is post-graduate medical education and accreditation.

Dr. de Korompay is an interventional radiologist and the head of radiology at KGH with an interest in interventional oncology, radial access and vascular malformations. He attended medical school at the university of Toronto, residency at the university of Manitoba, and fellowship at the university of British Columbia. Dr de Korompay currently sits on the board of the Canadian association for interventional radiology.
