

# KGH Cardiogenic Shock Working Group

**Physician Lead:** *Dr. Jordan Webber*

## Goal

- Engage multidisciplinary care providers with unique skillsets and expertise as primary stakeholders.
- Review current literature and best-practices to make implementation recommendations suitable for the environment of KGH to improve patient care and outcomes of this highly morbid presentation.

## Outcomes

- Produce multidisciplinary educational initiatives within the department of cardiac sciences to improve knowledge / understanding and care delivery for patients presenting with cardiogenic shock.
- Explore the possibility of standard critical care pathways and/or PPO's, and potentially an IH cardiogenic shock team.

**Budget approved: \$7,247.20**

**November 2024**
